

August 20, 2014

Ennova Learning Solutions, LLC
1250 Copeland Road, Suite 800
Arlington, Texas 76011

The Arlington Chamber of Commerce in Arlington, Texas is pleased to offer this Letter of Support for Ennova Learning Solutions, LLC. Ennova has served as a valued member of the Chambers' Corporate Leadership Council Partner for more than 4 years. In recent years, Ennova has volunteered their management team to serve on numerous education and workforce development projects of the Chamber. Last fall, Ennova was a contributor in the Chambers' Chriskindl Marketplace which attracts over 100,000 visitors to the city of Arlington each year.

The Chamber supports programs and services offered by Ennova in the local community of Arlington and throughout the United States. As a private educational service provider, Ennova's strategic objective is to serve as an expert college planning service to students who are college bound. The Chamber is focused on ensuring that employers have access – today and tomorrow – to a highly skilled, trained, qualified, and educated workforce. We achieve this goal in partnership with our educational partners, including Ennova.

It is our opinion, based on our experience in working with Ennova Learning Solutions – Arlington that they strive for the highest level of customer service beyond measure. Ennova offers college planning programs to help students begin to realize their potential and sets them on a path to help them achieve it. The programs are designed to work with students starting at 8th grade through their senior year of high school and into their entrance to college.

In summary, the Arlington Chamber is pleased to offer our support for Ennovas' programs and services in Arlington. We look forward to working with and supporting Ennova through its efforts to improve continuous information, education, and training in our community.

Sincerely,

Wes Jurey
President & CEO
